LANCOM Firewall Finder – UTM scenario (Full License)

LANCOM SYSTEMS

Sample customers	Data volume	UF-60 / UF-60 LTE	UF-160	UF-260	UF-360	UF-760
Medical offices, pharmacies, psychotherapy practices etc.	Low data volume e. g. e-mail, calendar, web surfing, VoIP, correspondence, invoices	**5** devices / workplaces	**15** devices / workplaces	**50** devices / workplaces		
Classic office environments, administrations etc.	Average data volume e. g. web-based office applications, conferencing solutions, presentations		**5** devices / workplaces	**25** devices / workplaces	**50** devices / workplaces	**200** devices / workplaces
Creative agencies, engineering / architectural office etc.	High data volume e.g. technical drawings, videos, web-based image, sound, and video editing			**5** devices / workplaces	**10** devices / workplaces	**40** devices / workplaces
Schools	Inconsistent data volume Different security level per network: e. g. administration network with UTM, but not in the student Wi-Fi			**< 25** teachers **< 400** students	**< 70** teachers **< 900** students	**> 70** teachers **> 900** students

Attention: Provider line could limit the data volume. For the data volume, LAN and WAN traffic must be considered additively.
