LANCOM Declaration of Conformity

Technical Guideline for Secure Broadband Routers BSI TR-03148

All LANCOM routers with the operating system LCOS 10.50 or higher meet the requirements of the Technical Guideline "Secure Broadband Router" of the German Federal Office for Information Security (BSI), TR-03148, Version 1.2, dated January 16th, 2023.

The Technical Guideline defines fundamental security requirements for Internet routers with the aim of providing a higher level of protection to users of the Internet.
